Global Offshore & Marine Pte Ltd

Global Offshore & Marine Pte Ltd (GOM) is a boutique Shipyard set up in 2006 as a one-stop turnkey project Specialist providing integrated services to the offshore and marine industry.

We specialize in a wide range of turnkey projects, including structural steel fabrication, piping and electrical work, marine accommodation systems and EPCC of LQ modules, E-houses and process modules. We undertake complete refurbishment and upgrading works for drilling rigs and drillships, FPSO conversion projects, ship repair and modification works and outfitting of pipe-laying and accommodation barges.

Having established ourselves as a specialist Contractor in providing all-round solutions to our clients, we have had completed numerous post-delivery upgrading & enhancement projects, on the 6th generation ultra-deepwater drillships and Semi-submersible rigs built by Samsung Heavy Industry Shipyard, DSME and HHI Korea.

In 2013, GOM moved into the current strategically located yard at 48 Tuas Road, Singapore a 44,000 square meter prime waterfront yard with 204m quayside where we have established and grown the company exponentially. We have since dredged and converted it into a boutique shipyard to provide full yard services with quality products and support services for our customers.

Our on-site experience gives us a competitive edge in anticipating client requirements. Our no-obligation assessment and consultancy service ensures precise evaluation of our customers’ requirements as well as a competitive price structure. As a small but growing shipyard, we have our senior technical specialists manage all projects including the largest of oil rigs afloat.

Providing our customers with top quality products and services have always been a priority to us. We are proud to have achieved the ISO 9001 certification. This is a testament to our complete commitment to the highest standard of products and services. Our products are manufactured under strict processes governed by ISO9001-2008 quality management system and ISO14001:2004 UKAS environment management system. In striving to take our offerings to the next level, we have also attained QI Quality Control Certification from the American Petroleum Industry (API) Standards. We also attained API 4F Monogram for construction of Crown Block Assemblies, Derricks, Masts and Substructures, ASME U and U2 for manufacture of pressure vessels and NB “R” for repair pressure vessels.

In recognition of our exemplary efforts to practice and maintain workplace safety and eliminate health hazards, the Singapore Ministry of Manpower, OHSAS 18001:2007 and BizSAFE STAR conferred us with the highest outstanding achievements in safety management systems. Our Safety record extends to over more than 3 million accident-free manhours in our yard without any lost time incidents for the last 3 rigs upgrading projects.
GlobalOne Yard & Cooperate Office

Panorama View of GlobalOne Yard & Cooperate Office:

Our Vision:

To be the preferred Provider of total package solutions and technical support services to the Offshore and Marine Industry globally.

Our Mission Statement:

To provide quality, on time and value for money services to meet the needs of our international customers.

Our Core Values:

✔ Integrity
✔ Commitment
✔ Accountability
✔ Technical Excellence
✔ Safety

Quality Policy

Our company is fully committed to providing best quality services which consistently meet the needs and expectations of our clients in a safe, co-ordinated and timely manner.

We aim to achieve this through:

✔ Continual improvement and enhancing efficiency in our work processes
✔ Promoting continual learning & training opportunities for our employees to enhance competency
✔ Taking individual and collective responsibility for ensuring product and service quality
✔ Customer Focus in meeting customer needs and requirements
Environment Occupational Health & Safety Policy

We at GOM are fully committed to:

Conducting all our operations in an accident free workplace at all time. We will continue to ensure that adequate steps are taken to mitigate any hazards inherent in the work environment for all our employees, contractors and general public in all its area of operation.

We aim to achieve this by:

✓ Educating and instilling the importance of Health, Safety and Environment awareness through training and enhance their competence communication.
✓ Preparing all employees to take personal accountability in their actions in the course of their work in order to create a hazard-free and healthy workplace.
✓ Ensuring that all managers and supervisory personnel are pro-active in promoting the company’s HSE expectations by adopting standards that conform to the industry’s standards to all employees and contractors.
✓ Acting responsibly in the course of our operations to lessen the impact to the environment by conserving natural resources by reusing and recycling materials without compromising on safety.
✓ Committing to the prevention of injury, ill health and pollution.
✓ Complying with applicable Environment, Occupational Health and Safety legal and other requirements.
✓ Continually improving the Environment, Occupational Health and Safety performance through monitoring and review of set objectives and targets.
✓ Communicating this policy to all the persons working for or on behalf of GOM

GOM’s EOHS Policy is reviewed periodically to ensure that it remains relevant and appropriate to the organization.

The following goals have been established as HSE Targets:

✓ Zero fatalities for all personnel
✓ Zero recordable incidents
✓ Zero incidents
✓ 100% compliance with all applicable laws and regulations
✓ Zero environmental incidents
QUALITY OBJECTIVES

1. To achieve 100% on time delivery to Client for each project annually
2. To minimise process non-conformances to 3 or less so as to improve efficiency in the work processes annually
3. To minimise product non-conformances to 3 or less for each project so as to ensure all Client specifications and requirements are met at relevant stages of the Project annually
4. To improve the competency level of GOM personnel by achieving 80% of the planned internal and external training annually
5. To continually improve and maintain the QMS certification by achieving 100% of the planned internal training annually

Our Products & Services

Being a one-stop integrated turnkey projects specialist in the offshore and marine industry, we specialise in the following services:

✓ Turnkey Project Management
✓ Structural Steel Fabrication
✓ Piping Fabrication – LP & HP
✓ UHP Hydro-blasting & Coating Process Modules
✓ Complete Marine Accommodation Outfitting & Furnishing
✓ Offshore Accommodation Modules
✓ Electrical & Cabling Work
✓ EPC of E-Houses & Process Modules
✓ Asbestos Abatement
✓ Scaffolding
✓ Marine & Oilfield Equipment, Machinery and Spare Parts
✓ Supply of Project Personnel – Engineers & Autocad Draughtmen, Structural & Piping Inspectors, QA/QC Inspectors
✓ Supply of Skilled and Class Certified Welders – 3G/4G/6G/6GR
✓ Electricians, Steel/ Pipe Fitters & Interior Architectural Outfitters Our specialty in the Marine Interior Accommodation Systems and Living Quarters Modules which include the complete structural steelwork, pipework, electrical & fire protection system, interior architectural package & HVAC:
✓ Engineering & Design/ Structural Analysis
✓ Structural Fabrication
✓ Architectural Outfitting and Accommodation Systems (European & Korean manufacturers)
✓ Galley & Messing Equipment
✓ Laundry Equipment
✓ Gymnasium Equipment
✓ Hospital Equipment
✓ Electrical Work
✓ Piping Work
✓ F & G System
✓ PA & Fire Alarm
✓ Steel & Wooden Furniture
✓ HVAC Coldroom Modular Systems
Principal Client & Profile

The principal clients of GOM are mainly from established and reputable oil majors shipyards, EPC companies, ultra-deepwater drilling specialists, offshore pipeline specialist and offshore engineering and construction companies which include, but not limited to the followings:

- Advanced Drilling Alaska
- ATL Offshore GmbH & Co.
- Atwood Oceanics
- Bumi Armada Berhad
- BP Exploration Operation Company Ltd
- Chevron Corporation
- Compact Energy Sdn Bhd
- Compass Drilling
- Consolidated Piper Carrier
- COSL Drilling
