# VISION, MISSION , STATEMENT & VALUES

## Our Vision

To be the global leader in delivering innovative offshore solutions and technical services, driving excellence, sustainability, and progress in the oil, gas, and marine industries.

## Our Mission

To deliver world-class, value-driven services that consistently exceed global customer expectations, fostering innovation, quality, and sustainable growth in every aspect of our operations.

## Statement

We are committed to transforming the offshore, oil, gas, and marine sectors by providing cutting-edge solutions and technical expertise. Our dedication to quality, sustainability, and innovation ensures we not only meet but exceed the diverse demands of our clients worldwide.

“Together, we aim to build a better, more efficient, and environmentally responsible future”.

# Key Personnel

# KEY PERSONNEL

**DANIEL FOO**  
EXECUTIVE CHAIRMAN

With over 40 years of experience in the offshore and marine industry, our founder is a seasoned leader known for his strategic vision, technical excellence, and collaborative approach. A former Marine Chief Engineer with a Norwegian ship management company, he has led numerous high-profile projects with global offshore leaders including Transocean, Ensco, Seadrill, TLO, Pacific Drilling, Shelf Drilling, Chevron, and OMNI Offshore. His leadership style blends hands-on expertise with a focus on innovation, safety, and team empowerment. Committed to delivering excellence in every endeavour, he continues to inspire a culture of performance, integrity, and forward-thinking solutions across the industry.

**KEVIN LEW**  
CEO & CFO

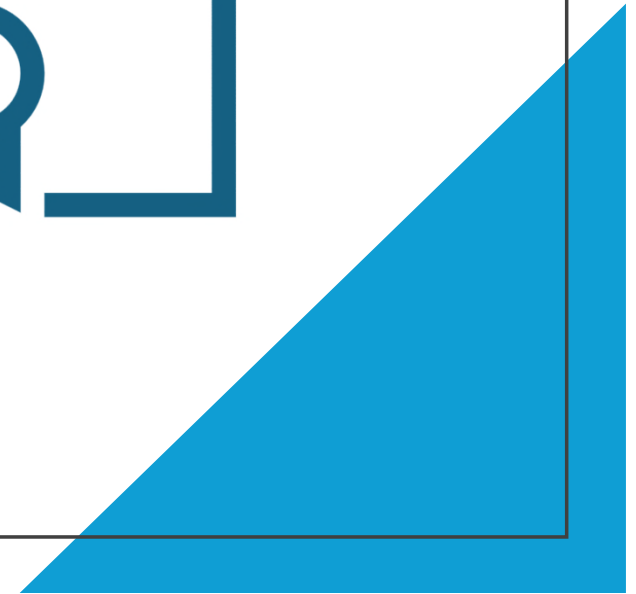

Our CEO & CFO brings over 33 years of multifaceted leadership across finance, accounting, treasury, corporate finance, and audit. Renowned for his strategic foresight and execution, he has successfully led three companies through public listings ,two on the Singapore Stock Exchange and one on NASDAQ in the U.S. His leadership spans diverse industries including marine engineering, contract manufacturing, port operations, property development, and logistics. Known for his ability to align financial strategy with business vision, he drives operational excellence, financial discipline, and sustainable growth, while fostering a high-performance culture rooted in integrity, accountability, and long-term value creation.

**SASIKUMAR  
NATARAJAN**  
Director of Projects

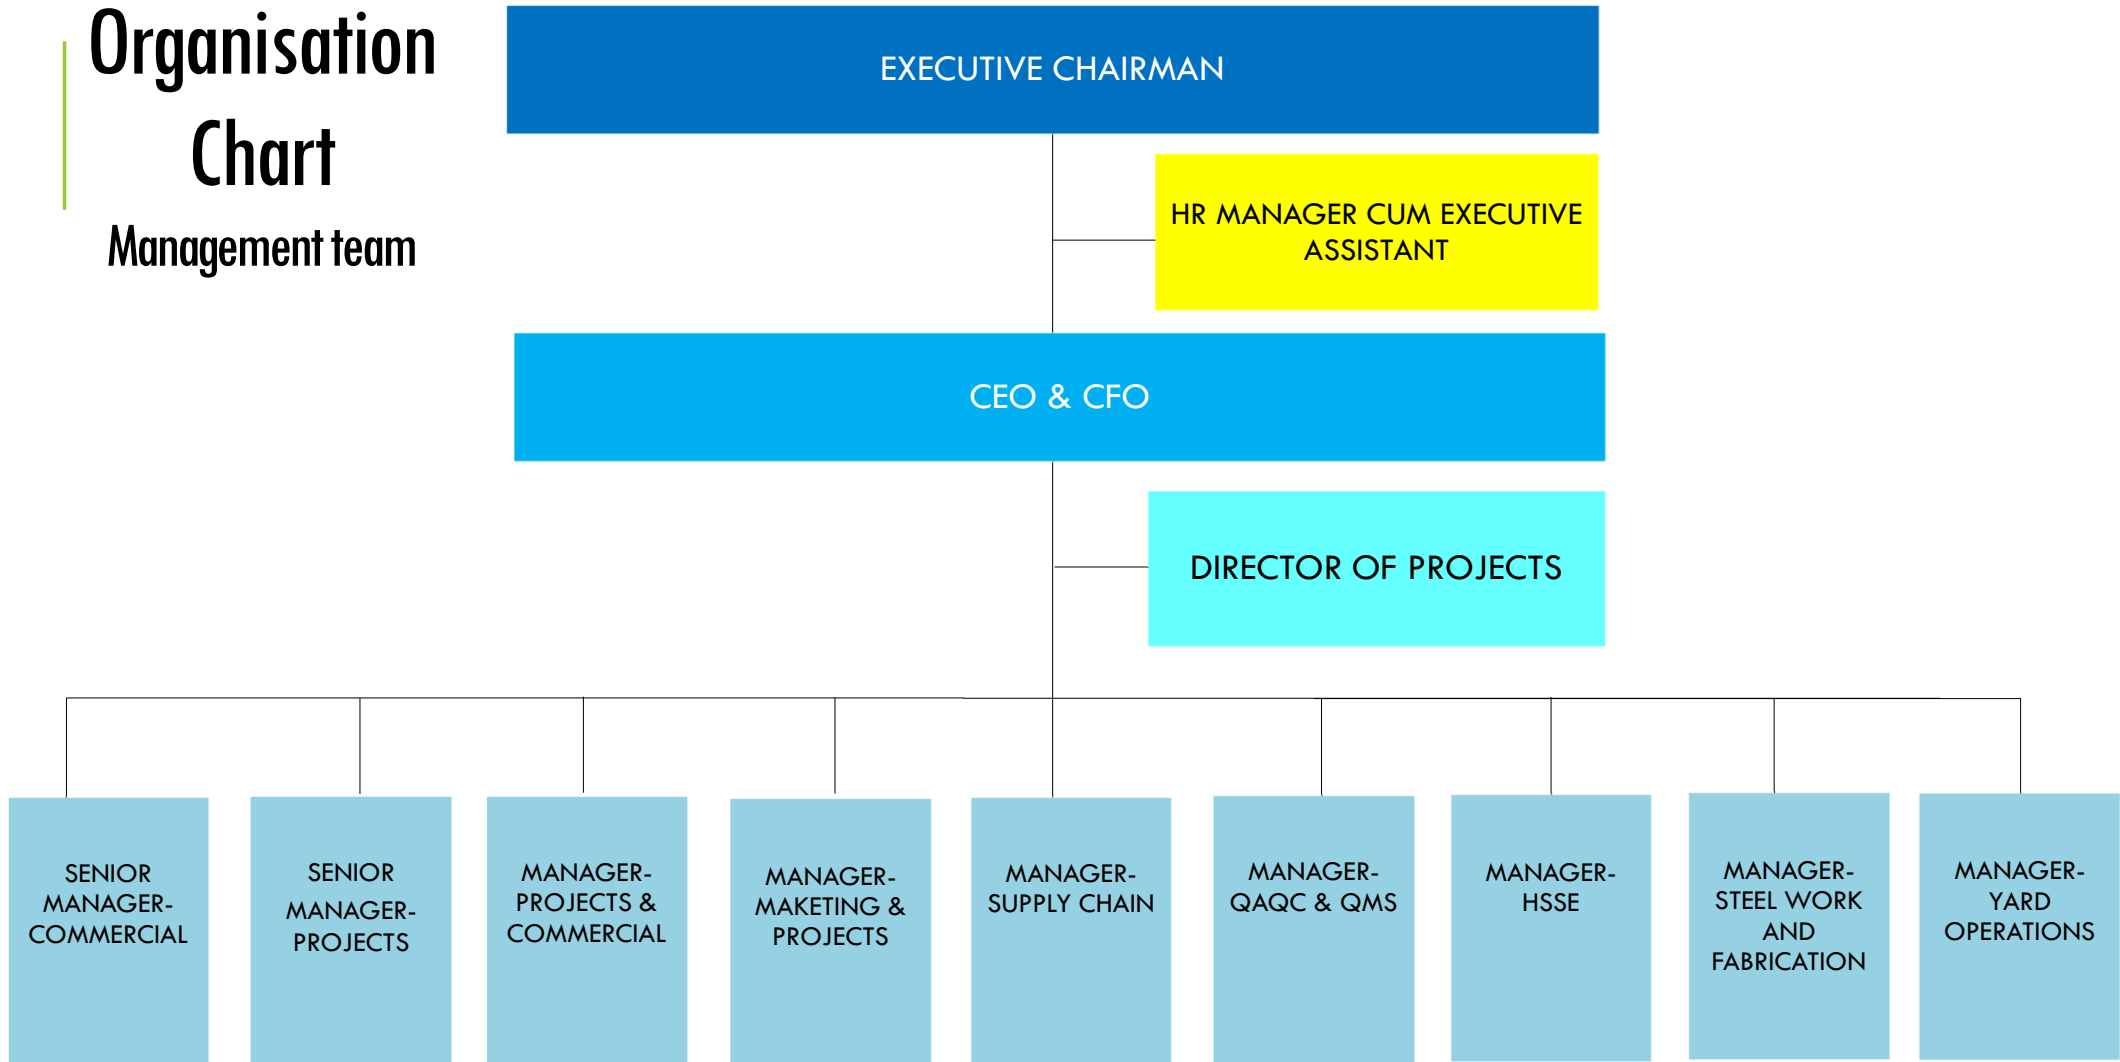

Our Project Director brings over 24 years of hands-on leadership in executing complex projects across the oil & gas, offshore, and marine sectors. With deep technical expertise in Offshore Drill Ships, Jack-up Rigs, Semi-submersibles, FPSOs, FSOs, GLNGs, and specialized offshore vessels, he leads with precision and operational clarity. His capabilities span project tendering, contract management, field development, and the full lifecycle of MOPU and MODU deployment. Known for his disciplined approach to project delivery, completions, and commissioning, he combines strategic oversight with engineering acumen to consistently deliver results driving performance, safety, and value in both fixed and floating production environments.

# About Us

# About Us - Milestone

Established in 2007 as a boutique shipyard in Singapore for structural steel fabrication , piping , electrical installations, marine Accomodations and EPCC of LQ Modules , E Houses and Process Modules.

2007

Range of services extended to refurbishment and upgrading of drilling rigs , FPSO conversions , Ship Repair and Modifications. Business Expanded across globe , Asia Pacific , Middle east , Africa ,China, India , South America etc.

2013-2023

2012

Become a turnkey project specialist for the offshore and marine industry.  
Jackup Rigs , Submersible and semi Submersible Rigs , Pipe Lay Vessels , Drillships, Etc.

2023

Acquired a new facility at 22 Tuas Street 15, Larger space allows company to serve clients from Major oil & Gas and Marine industry owners and partners

## List of Services

1	Turnkey Project Management EPCC ,End to End project Execution .	18	Underwater welding and repair works.
2	Basic and Detail Engineering.	19	Stacking (Cold and Warm) and Reactivation of Rigs
3	Refurbishment and Upgrading of rigs and Vessels, contract prep work Condition Assessment Survey Report of Assets (Rigs and Vessels).	20	Warehousing and Storage of Client equipment.
4	Accommodation / LQ Outfitting (New Build, Repair and Upgrade).	21	Supply of Skilled Manpower.
5	Conversion and Outfitting of pipelay Barge/ Vessels.	22	Post Delivery Enhancement Services.
6	Shipyard Services, EPCC contracting works.	23	Blasting and Painting works (UHP Hydro-blasting and Coating ).
7	Heavy Structural Steel Fabrication .	24	Survey and equipment works for marine safety , Well control Drilling packages.
8	Piping Fabrication - LP and HP .	25	Customized work packages for clients.
9	Electrical , Instrumentation, Control System.	26	Onshore / Offshore Drilling rigs.
10	Control Valves , Pressure relief Valves , Safety Valves, Calibration and Certification.	27	Mobile Offshore Production Unit ( <b>MOPU</b> ).
11	Mechanical and Hydraulic Systems.	28	Jackets , Topsides , Pressure Vessels and other Process equipment's.
12	Marine Equipment and Spare Parts Supply.	29	Process plants , Modules , Systems and Skids.
13	Rope Access works.	30	Offshore Wind Tower Pedestal fabrication .
14	Scaffolding.	31	Offshore Operation and Maintenance.
15	MRO Services (Maintenance, Repair and Overhaul).	32	Transportation , Installation , Hook-up and commissioning.
16	HVAC and Cold-room Systems .	33	Shutdown and Installations .
17	EPC of E-House, Utility and LQ Modules.	34	Supply of Project Specialists Team.

## About Us

# Strong cash flow pinned by the core Offshore and Maritime Business

Global Offshore and maritime service provider with 18+ years of experience

International Presence and strong networks worldwide .

Operational Excellence with 99% uptime throughout 2024

Net revenue till end of 2024

 \$ **483+**  
Million

123+  
Employees

Zero HSE  
Incidents

150+ Major  
Projects

# Quality Policy

# QUALITY POLICY

At GOM, we are a one-stop turnkey project specialist delivering integrated services and quality products to the offshore and marine industry. Our Quality Policy establishes a framework to:

- **Consistently meet client requirements** by providing high-quality products and services.
- **Ensure compliance** with all applicable statutory and regulatory requirements across our projects.
- **Enhance customer satisfaction** by effectively applying our Quality Management System (QMS), fostering continual improvement, and guaranteeing conformity to customer and regulatory standards.

We are committed to implementing an effective QMS and continually improving its effectiveness by focusing on the following principles:

- **Driving continual improvement** in our work and enhancing operational efficiency.
- **Promoting learning and development**, empowering employees with training to boost technical competencies.
- **Taking responsibility for quality**, ensuring every team member contributes to the excellence of our products and services.
- **Exceeding customer expectations** by aligning our work with their specific needs and requirements.

# HSSE Policy

# HSE Policy

**Zero** Fatalities

**Zero** recordable injuries

**Zero** Accidents

**Zero** Environmental Incidents

**100%** compliance

Our company is committed to maintaining an accident-free workplace by prioritizing the health, safety, and well-being of employees, vendors, and contractors. This commitment contributes significantly to our overall success. We ensure proactive measures are taken to identify and mitigate workplace hazards, creating a safe environment for our employees, contractors, and the public in all areas of operation.

We achieve this by:

- Promoting Health, Safety, and Environmental Awareness, Educating and instilling a strong understanding of health, safety, and environmental practices through comprehensive training and effective communication.
- Encouraging Personal Accountability, Empowering employees to take ownership of their actions to foster a hazard-free and healthy workplace.
- Upholding High Standards ,Ensuring that all managers and supervisors actively promote and adhere to the company's HSE standards, aligning with industry best practices and communicating these expectations to all employees and contractors.
- Protecting the Environment, Acting responsibly by minimizing environmental impact through conservation, reuse, and recycling efforts, without compromising safety.

By embracing these principles, we strive to build a sustainable and safe working environment that benefits our workforce, partners, and the communities we serve.

# List of Projects

## ONGC MOPU SAGAR SAMRAT TRANSPORTATION & INSTALLATION PROJECT ABU DHABI TO INDIA MUMBAI HIGH OFFSHORE WO-16 PLATFORM

### Sagar Samrat MOPU Transportation & Installation Summary Completed:

- Wet tow from GPC/IMCC Yard to Abu Dhabi Outer Anchorage
- Dry Tow Transportation of MOPU through HLV MV Falcon from Abu Dhabi Outer Anchorage to Sikka/Bedi Anchorage, India.
- Wet tow from Sikka/Bedi Anchorage, Gujarat to WO-16 platform, Mumbai High.
- Full Jacking Trial of MOPU Sagar Samrat near WO-16 Platform, Mumbai High.
- Docking, final positioning and jack-up of MOPU at WO-16 Platform Final Location.
- Installation of Telescopic Bridge from MOPU to WO-16 Platform.
- Operation and Maintenance of MOPU marine systems.

# List of Projects

## ONGC SAGAR RATNA(2023-2024)

**Docking Location:** Rohini Shipyard Mumbai , India

**Vessel Type:** Jack-up Rig

- Leg Bracing Renewal, Leg Ladders And Anodes (Leg And Spud can)
- Pipes And Valves Renewal
- Electrical Works
- Accommodation Refurbishment Works
- Equipment Overhauling Works
- Blasting And Painting Works
- Miscellaneous Works (Including Major Equipment)

# List of Projects

## ADES RIG 687 & 689 (2022 - 2023)

- **Docking Location:** Globalone Yard, 48 Tuas Road Singapore 638500
- **Vessel Type:** Jack-Up
- Over 100 additional work packs were seamlessly integrated into the project, encompassing critical areas such as structure, piping, architectural, electrical, mechanical and painting works.
- **Structure Work** - For ADES Rig 687, steel renewal amounted to 100 tons for primary structures. For ADES Rig 689, steel renewal involved 230 tons for primary structures and 90 tons for secondary structures.
- **Piping Work Completed:** Piping work on ADES Rig 687 amounted to 14,184 dia-inch, while on ADES Rig 689, it reached 28,142 dia-inch.
- **Painting Work Completed:** The entire hull side of the rig and living quarters (LQ) were repainted, with tanks inside cleaned and painted.

## BALTIC - SHELF DRILLING ( Nov 2014 – April 2015)

**Docking Location:** Globalone Yard, 48 Tuas Road Singapore  
638500

**Vessel Type:** Jack-Up

- Derrick Renewal with New Crown Block And TDS
- LQ Upgrade
- Helideck Upgrade
- Leg Repair
- Cantilever & Drill Floor Upgrade
- Drilling Equipment Upgrade
- Emergency Generator Upgrade
- E&I Upgrade
- Water Maker Upgrade
- Hp & Lp Mud System Upgrade
- Sea Water System Upgrade
- Abs Special Periodic Survey
- Hull Steel & Piping Renewal
- Fire Water System Upgrade
- OEM Equipment Overhaul
- Full Rig Painting

# List of Projects

## KEY SINGAPORE - SHELF DRILLING (July 2014 - March 2015)

**Docking Location:** Globalone Yard, 48 Tuas Road Singapore 638500

**Vessel Type:** Jack-Up

- Derrick Renewal Project with New Crown Block and TDS
- Helideck Upgrade
- Cantilever & Drill Floor Upgrade
- Drilling Equipment Upgrade
- LQ Upgrade
- Leg Repair
- **Upgrading Work:** Water Maker, HP & LP Mud System, Sea Water System, Fire and Gas System, Emergency Generator, E&I , V-Sat Communication Network, Full Rubber Goods Store, Mud Piping System Upgrade To 7500 Psi, Drilling Instrumentation System, PAGA & Telephone System
- **Renewal Work:** Bulk Air System , Fuel Oil System Piping, Main Engine Cooling System, Rig Air & Start Air System , Pipping, Tank Vents & Sounding Pipe, Potable Water Piping, Fire Water Piping , Sanitary Water Piping, Well Test System Piping, Brake Cooling System Piping, OWS & Drain System Piping, Drill Water Piping, Sea Water Piping, Bilge System Piping
- **Structural Renewal Work:** Hull Steel , Helideck Ladders, Handrails, Walkways, Quarters External Walkways, Machinery Deck Secondary Structure, Drill Floor Secondary Structure, Living Quarter Systems, Main Deck Handrails,
- **Replacement Work:** Hull Steel, BOP Control Unit, Trip Tank System
- **Installation:** Drillers Control Room, New Water Maker, Rig Floor CCTV, New Raw Water Tower Fabrication & Installation
- Full Rig Painting

# List of Projects

## JAVA CONSTRUCTOR - SAPURA KENCANA PETROLEUM ( Sept 2012 – Sept 2013)

**Docking Location:** Globalone Yard, 48 Tuas Road  
Singapore 638500

**Vessel Type:** Pipe-Laying Vessel

- New Construction Helideck Module
- New Construction Living Quarter Module
- Refurbishment Of Existing Living Quarter
- Structural Modification & Additions

# List of Projects

## KG2 (TRANSOCEAN) – ( 2009 – 2010 )

**Docking Location:** South Korea, Voyage Korea to Singapore

**Vessel Type:** Drillship

- Major Post Delivery Enhancement Works at Alongside, Anchorage & Voyage
- Structural Modifications & Additions
- Subsea Module
- HP/LP Pipe Modifications
- Under Deck Strengthening for Various Equipment
- Accommodation Reconfiguration with Internal Major Steel Modifications/Strengthening
- A/C Package System for Warehouse
- Rig Telephone System Extension
- Access/Scaffolding Works
- Heavy Lifting of Rhos Using Sheer Leg Floating Crane at Voyage
- Supply of Project Team with Skilled Tradesmen
- Rental of Equipment
