

**Global Offshore & Marine Pte Ltd**  
PARTNERING CLIENTS | DELIVERING SOLUTIONS

# ABOUT US

Founded in 2007, **Global Offshore & Marine Pte Ltd (GOM)** is a Singapore-based boutique shipyard delivering comprehensive, one-stop turnkey solutions to the Offshore & Marine industry.

GOM provides **EPCC solutions** for offshore and marine projects, including **topside modules, LQ modules, E-Houses, and process modules**, supported by **structural steel fabrication, piping, mechanical and electrical works**, and **offshore accommodation systems**. Our **turnkey shipyard services** cover **jack-up rigs, semi- and submersible rigs, pipe-lay vessels, and drillships**, with proven expertise in **rig refurbishment and upgrades, FPSO conversions, ship repair and vessel modifications**, as well as **shipbuilding and rig construction** for new builds, upgrades, retrofits, and CCUS-ready facilities. Our delivery is driven by **customer-centricity, flexibility, on-time execution, and cost-effective quality solutions**.

As part of the Group's regional growth strategy, **Global Offshore & Marine India Pvt Ltd** was established in 2023 and is fully operational. The company strengthens the Group's ability to support regional and international offshore and marine activities through localized expertise, resources, and operational support.

To further expand its footprint in Southeast Asia, **PT Global Offshore & Marine** was established in Indonesia. This strategic presence enhances the Group's capability to serve regional and international offshore and marine projects with strong local knowledge and resources.

Together, these three entities operate under the **GlobalOne Group of Companies**, delivering integrated offshore and marine solutions through shared technical expertise, engineering excellence, and disciplined project execution across the region.

# ABOUT US

In 2025, GOM commissioned a **custom-built facility** in Singapore, spanning over **35,000 sqm** with **166m of waterfront berth**, equipped with **four service workshops, warehouses, a blasting chamber, overhead and crawler cranes, and marine barges**, significantly enhancing our project execution capability.

Demonstrating our unwavering commitment to **safety, quality, and operational excellence**, GOM is certified to **ISO 9001, ISO 14001 (UKAS), OHSAS 18001, API, ABS, and BizSafe standards**.

# CORE VALUE

## Safety

A guiding principle **Safety** and uncompromising priority in everything we do. We strive to provide a healthy and safe environment for our staff, customers, partners and all.

## Customer-Oriented

Our customers are the reason for everything that we do. We value our partnership and lasting relationships built with our customers for long-term mutually beneficial cooperation.

## Excellence

Our relentless pursuit of excellence in quality, performance and efficiency keeps us at the forefront of industry evolution and transformation.

## Integrity

We are fully committed to act with honesty and integrity and in full compliance with rules and laws in everywhere that we operate.

## Sustainability

As a responsible corporate citizen, we prioritize environment, social and governance issues on sustainability to benefit all stakeholders.

# MILESTONES

**2007**

Founded in Singapore as a boutique shipyard, GOM delivered **structural steel fabrication, piping, electrical works, marine accommodations, and EPCC solutions for LQ modules, E-Houses, and process modules.**

**2012**

Acquisition of GOM's first boutique yard at **48 Tuas Road** marked its transformation into a **turnkey specialist** for the **Offshore & Marine industry**, serving jack-up rigs, submersible and semi-submersible rigs, pipe-lay vessels, and drillships.

**2013-2022**

GOM expanded its capabilities to **rig refurbishment and upgrades, FPSO conversions, ship repair, and vessel modifications**, delivering projects across **Asia Pacific, the Middle East, Africa, China, India, and South America.**

**2023**

Acquired a new facility at **22 Tuas Street 15**, Singapore, significantly enhancing capacity to support **major Oil & Gas and Marine owners and partners.**

**2025**

GOM targets global leadership as an EPCC service provider, specializing in topside module fabrication for FPSOs, FSOs, FPUs, FSRUs, and CCUS projects, alongside shipbuilding and rig construction, including new builds, upgrades, and retrofits.
